The original version of this article unfortunately contained the following mistakes.

1. The word “enhancing” in the last sentence of the abstract should be “decreasing”, the corrected sentence should be “Taken together, these results indicate that apple MdSIZ1 negatively regulates drought stress by decreasing leaf water-holding capacity and antioxidant enzyme activity.”
2. The authors changed the “Graphical Abstract” into the following figure:

3. The last word “leaf” in the third line of section 3.4 in the results should be changed to “ Ψ_{leaf} ”, that is, the corrected sentence should be “According to the LRWC and Ψ_{leaf} , we found a higher water holding capacity of MdSIZ1 RNAi transgenic plants compared to GL-3.”
